Smart Home Detector

▸ Nindo Wifi Smoke Alarm N-SM400A

https://expo.tuya.com/product/392479

This Product is a Smart Photoelectric Smoke Sensor, with ulta-low-poer MCU design. It is an early warning device, can't detect gas, heat, or fire, nor stop fire or put out fire. It is capable of real-time detecting the presence of smoke. Once detect danger of fire smoke,red LED will be ON, and alarming to alert you and your family timely.

▸ Nindo Wifi Smoke Alarm N-SM443W

https://expo.tuya.com/product/608422

- Dimmension : 107*48 mm
- Weight : 220g
- Power Supply : DC9V alkaline battery (6LR61)
- Static current : <10uA
- Alarm current : <100mA
- Detecting area : 20 square meter
- Alarm sound : >80dB
- Low battery alert : <= 7.0V±0.2V
- Battery standby lifetime : 6 months
- Working temperature : 0°C~+50°C
- Working Humidity : <= 95%RH, no freezing

▸ Nindo Wifi Smoke Alarm N-SM05F

- Dimmension : 104*39 mm
- High accurate electrochemical sensor and infrared photoelectric
- Sensor LCD display concentration PPM
- 3*1.5V aa battery supply (not including)
- Ultra-long standby time, low current consumption
- Low-battery warning
- Alarm memeory function Alarmming pause (hush mode)
- Sound & flash alarm & LED indicating alarm

UI217 & UL2023 REPORT

▸ Nindo Wifi Smoke Alarm N-SM11

- Self test / mute function
- Design of big button on the top cover
- Low voltage reminder function
- Quiescent current ≤ 10 μA; Alarm electricity
- Current ≤ 50mA
- Insect proof, moisture-proof and visible light design
- Size : Φ120*31.5 mm
- DB value TUV CE certification
- Warranty : 1years

Smart Home Detector

▸ Nindo Wifi Smoke Alarm N-SM01CS

- Alkaline AA battery, replaceable
- Selt test / mute function
- Low voltage reminder function
- Static current ≤ 10 μA; Alarm power
- Current ≤90mA
- Button designon the cover
- Insect proof, moisture-proof and visible light design
- Size : Φ120*28.5 mm
- DB value : >85dB / 3M
- According to EN 14604
- According to EN 50291
- Warranty : 1years

▸ Nindo Wifi Smoke Alarm N-SM11R

- Self-check/mute function
- Big button design on top cover
- Low voltage reminder function
- Static current ≤ 10 μA; Report to the police power
- Flow or less 50 ma
- Insect proof, moisture proof and visible light design
- Size : Φ120*31.5 mm
- the DB value : >85 DB / 3 m
- European TUV CE certification
- Optional 433/868
- Warranty : 1years

▸ Nindo Wifi Gas Leak Alarm N-GS400A

https://expo.tuya.com/product/602455

This Product is used to detect the leakage of flammable gas and prevent the harm cause by gas leakage. The alarm uses high stability semiconductor gas sensor, which hasthe characteristics of high stability and small sensitivity drift. When a flammable gas leak is detected and the concentration value set by alarm is reached, the alarm will send an alarm signall. this product is used indoor where leakge may occur, such as kitchens.

▸ Nindo Wifi Gas Leak Alarm N-GS400B

1. High- sensitivity high- stability long-life gas sensor
2. Response recovery is fast response time 30 seconds
3. Large screen LCD displays gas concentration and device status in real time

▸ Nindo Wifi Gas Alarm N-GS01

https://expo.tuya.com/product/917050

- Battery : DC5V (micro USB standard connecor)
- Net weight : 148g
- Gross Weight : 240g
- Color : white
- Alarm time : <30second
- Installation method : wall mount
- Air pressure : 86-106 Kpa
- Operation Temperature : 0-55°C

Smart Home Detector

▸ Nindo Wifi Pir Detector N-PR400C

https://expo.tuya.com/product/1024043

> Wi-Fi Universal Remote
> Scheduling
> Create Scene
> Auto Home / Auto Away (Not Fit for IOS iPhone)
> Input Voltage : DC 5V
> Input Current : 1 A

▸ Nindo Wifi Temperature & Humidty Sensor N-TH400A

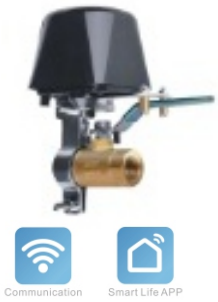

https://expo.tuya.com/product/762036

1. Siren with temperature and humidity sensor
2. Super alarm dazzling light
3. 2.4 Ghz WIFI one-key connect easy set up
4. Plug and play farewell tedious

▸ Nindo Wifi Smart Valve N-VV400A

https://expo.tuya.com/product/1024043

1. Power supply voltage : 12V/1A
2. Communication technology : WIFI
3. Valve Pressure : 1.6Mpa
4. Closed valve time: 5-10 seconds
5. Valve opening time : 5-10 seconds
6. Torque : 30-60 kg.cm
7. Application valve type : handle type valve
8. Valve specification : 4 points, 6 points, 1 inch, 1.25 inches

▸ Nindo Wifi Smart Garage Door N-GR300A

https://expo.tuya.com/product/1037005

- Working with : Amazon alexa, google assistant, IFTTT
- Power supply : DC 220V
- Action : 3-15mm
- Mobile Phone : “Smart life” for android & IOS
- Connection wire lenght : 5M
